

We envision a Jamaica where students are inspired and empowered to succeed and to positively impact their community.

IDEAL JOB DESCRIPTION

It is important to understand what your future career entails and how it will look like. You will research your preferred career choice and find a job description for it. You can insert in this in your portfolio with a paragraph of why you chose this career and what do you love about it. You must state the career choice that you want at the beginning of the page as well.

SAMPLE

I want to become a forensic pathologist in the future

To determine the identity of the victim and the time, manner and cause of death, the forensic pathologist:

- Studies the medical history
- Evaluates crime scene evidence including witness statements
- Performs an autopsy to uncover evidence of injury or disease
- Collects medical and trace evidence from the body for further analysis

I want to be a forensic pathologist because there is a lot of crime in Jamaica and the law enforcement officers need assistance in collecting evidence. I love the human body and I am passionate about helping to cut down the violence in my country. I always loved NCIS and similar shows and it inspired me to become a forensic pathologist and I hope, God's willing, to serve my country and bring closure to families who lost a loved one.
